

Eden Girls

September 2020

Dear Parents/Carers,

We have received a complaint on behalf of residents living on Lancaster Road and other roads close to the School. The residents are experiencing continued problems with illegal parking by cars that belong to School parents who do not have LBWF permits. Some parents are preventing residents from parking and on occasions blocking driveways for the 15-20 minutes when pupils are collected from the School. This has led to some aggressive exchanges between some parents and residents. This behaviour by parents is not acceptable and damages community cohesion, please refrain from arguing with residents.

On behalf of this School that works closely with its community and values the residents of Waltham Forest, I would like to remind you of parking considerately without inconveniencing local residents. Indeed, it is better that students walk to School or take the local bus route. Parking enforcement officers will be on duty on local roads to prevent this kind of practice from reoccurring.

Thank you for your support.

Yours sincerely,

Shahina Ahmad

Principal
Eden Girls' School, Waltham Forest
